

Freshwaters on the edge?

An open discussion about Farming and Freshwaters with a panel of some of New Zealand's most knowledgeable freshwater scientists and managers:

- The health of New Zealand's freshwaters: how did we get here and what needs to be done?
- How can communities engage with freshwater scientists and managers to affect action?
- What is the role of clean-up funds, industry best practice and citizen science?

When: Monday Dec. 5, 7pm to 9pm

Where: Invercargill Workingmen's Club, 154 Esk Street

Participating panellists:

- *Prof. Bryan Brooks, Director Environmental Health Science Programme, Baylor University, USA*
- *Dr. Scott Larned, Chief Scientist - Freshwater Science, National Institute of Water and Atmospheric Research, Christchurch*
- *Assoc. Prof. Christoph Matthaei, River and stream ecologist, University of Otago, Dunedin*
- *Mr. Ned Norton, Consultant, LandWaterPeople Ltd., Lyttleton*
- *Dr. John Quinn, Chief Scientist - Freshwater and Estuaries, National Institute of Water and Atmospheric Research, Hamilton*
- *Dr. Richard Storey, Freshwater Ecologist, National Institute of Water and Atmospheric Research, Hamilton*
- *Prof. Jenny Webster-Brown, Director of the Waterways Centre for Freshwater Management, Christchurch*

Chaired by: *Dr. Marc Schallenberg, Lake and estuary scientist, University of Otago, President of the New Zealand Freshwater Sciences Society*
